ECONOMIC DEVELOP/DEPT Provides for changes to reporting requirements of the Department of Economic Development and the Economic Development Corporation

Current law: The Department of Economic Development (LED) is directed to publish an annual report and recommendations for improvement concerning its operations. LED must also provide an annual report detailing programs in targeted economic development zones and progress on an information clearinghouse for economic development data. LED must submit a biennial reporting of new direct jobs created and a fiscal analysis of the Quality Jobs program. A quarterly report is also submitted to JLCB and the Commerce Committees including all approved applications for the Economic Development Award Program. Reports are also due upon request of the Governor, the Legislature and any Committee. Proposed law consolidates LED reporting requirements largely into the annual report by inclusion and definition of an overview of each incentive and assistance program administered by LED and removes the reporting requirement for the data clearinghouse progression. LED will report the same Award Program information bi-annually only to JLCB on October 1 and April 1. Reports will continue to be due upon request of the Governor, the Legislature and any Committee.

## **EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. LED indicates that these changes can be undertaken using the current budget appropriation. These changes should work to make it easier for LED to report information about the various programs it administers.

## **REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
